

**MINUTES
OF THE
STATE TRANSPORTATION BOARD MEETING
9:00 A.M., Friday, June 20, 2003
City of Douglas Council Chambers
425 10th Street
Douglas, Arizona 85607**

The State Transportation Board met in official session for a regular meeting at 9:00 a.m., Friday, June 20, 2003, with Chairperson Radicke presiding. Other Board members present included: Vice Chairperson Bill Jeffers, Rusty Gant, Dick Hileman, Joe Lane, and Jim Martin. Si Schorr took part in the meeting via telephone. Also present were Debra Brisk, Deputy Director; Bill Higgins, Acting State Engineer; John McGee, Chief Financial Officer, Administrative Services Division; Dale Buskirk, Director, Planning Division; and Gary Adams, Assistant Director, Aeronautics Division. There were approximately 50 people in the audience.

OPENING REMARKS AND PLEDGE

Chairperson Radicke led the audience in the Pledge of Allegiance. He thanked the City of Douglas for their hospitality and introduced dignitaries in the audience.

DISTRICT ENGINEER REPORT

Ron Casper introduced members of the District Engineers' Office. He discussed the status of current construction projects and significant issues within the area. He reported 15 enhancement projects are at some stage of development, design or construction within the county. He noted the county also has aspirations to bring Davis Road up to standards. He stated the \$7 million Gila River Bridge turned out extremely well and was very well received and the \$14 million realignment of 191 through the Black Hills area is now open to traffic and working remarkably smooth. A written copy of his comments was submitted for the record.

CALL TO AUDIENCE

Michael Ortega, Douglas City Manager, thanked the Board for coming to Douglas. He stated Ron Casper has done a great job of identifying the district's needs and the investments made by the Board have made a significant difference in traffic circulation and the aesthetics of some of the area's corridors. He asked the Board to keep small towns in mind when considering future budgets.

Paul Newman, Supervisor, District 2, commented on the importance of border issues in his district. He noted development will occur along the freeway, including a very large community planned just outside Benson. He said the development will magnify traffic problems in the area, necessitating expensive mitigation measures. He spoke about the need to maintain the integrity of the Port of Douglas.

Jennifer Burns, State Representative, thanked the Board for all they have done in her district and throughout the state.

Mary Jacobs, Assistant City Manager, City of Sierra Vista, thanked the Board for all of their efforts in Cochise County, specifically their participation in the Small Area Transportation Study currently underway in the Sierra Vista area. She said, thanks to the Board's grant and the city's design and inspection, preemption devices have been put on all signals in the city of Sierra Vista. She thanked Gary Adams for his support and assistance in returning rural air service to Arizona, despite funding cuts. She expressed her opinion the state is getting a bad reputation with regard to what it is not doing in response to military installations. She said the base realignment and closure process is underway and communities are working to retain military installations. She noted many of the projects ADOT has funded in the Sierra Vista area will significantly benefit the city and Fort Huachuca as it proceeds through the realignment and closure process. She also commented on the wonderful job Ron Casper does for the district.

John D. Brack, General Manager, Phelps Dodge Morenci, Inc., thanked the Board for their help on the Highway 191 realignment at Black Hills. He said Phelps Dodge Morenci has over 2,000 employees, about 50 percent of whom live in Safford and use the road on a regular basis. He stated the improvements have significantly enhanced the safety of their workforce and suppliers. He thanked Mr. Casper for his help over the years. He also expressed his appreciation to ___ of Parsons Brinkerhoff, stating he did a great job of keeping Phelps Dodge informed of schedule changes and Jim Baker for his help in keeping the traffic flowing. He stated Phelps Dodge is also interested in the project on I-10 to the junction of SR 266, noting they are in the process of permitting a major mine in the Safford area. He said Phelps Dodge and Ron Casper have also been discussing a widening project on SR 191 given the amount of truck traffic on that road.

CONSENT AGENDA

Item 64 was tabled until the July meeting.

No items were removed from the Consent Agenda.

Director's Report

Ms. Brisk reported several people, including herself and Chairman Radicke, attended WASHTO. She said reauthorization and environmental streamlining were major topics of discussion. She said Mary Peters will return to Washington and address heads of the EPA and US Corp of Engineers with regard to how they can better work with the Departments of Transportation in terms of streamlining. She reported the Hoover Dam Nevada approach has been advertised for bidders. She stated the budget closed last night and she will fax the Board information concerning its impact on ADOT.

Maricopa Association of Governments (MAG) Regional Transportation Plan/Alternatives Stage/Transportation Modeling Scenarios Evaluation

Mr. Eaton reviewed MAG's Regional Transportation Plan Transportation Modeling Scenarios. He explained HB 2292, passed during the last Legislative session, requires that the Regional Planning Agency establish transportation policy. He said a Transportation Policy Committee was established and is responsible for recommending and approving a 20 year comprehensive, performance based, multi-modal, coordinated regional transportation plan. He said the plan is developed in cooperation with the Regional Public Transit Authority and the Department of Transportation and the alternative stage plan has been submitted to the RPTA, ADOT and the County Board of Supervisors for their review. He said, once reviewed and amended by the RPTA, ADOT and the County Board of Supervisors, a final plan will be submitted for review and approval. He stated the Transportation Policy Committee is also charged with considering plan modifications proposed by any of the entities; approving, disapproving or further modifying each proposed modification; providing direct responses to the reviewing authorities; and recommending the plan to the Regional Planning Agency for approval and air quality conformity analysis no later than September 30, 2003.

Mr. Eaton said, in order to evaluate a program of this magnitude, the committee decided to do a system-wide evaluation of various scenarios. He explained one scenario focused heavily on freeways, the second scenario focused mainly on streets and the third scenario focused on transit. He stated the intent is to take the best from each of the three alternatives to create a hybrid plan that best serves the region. He said they believe the Board should support construction of new freeway corridors, specifically the Estrella, Loop 303, South Mountain and Loop 202. He stated they also support new routes, including an I-10 reliever and a Williams-Gateway link off the Santan. He said they further support expansion of existing freeways, including HOV lanes, HOV access ramps, general purpose lanes, and shared funding of new TI's. He stated further evaluation will be needed to identify funding options for maintenance. He said the Committee further felt quality of life elements, such as noise walls, quiet pavements and landscaping, were important issues, as were future freeway corridor preservation, private participation, and strategic right-of-way purchases. With regard to major arterial improvements, Mr. Eaton reported the Committee supports good connectivity between freeways and streets as well as adequate surface streets in areas where freeways will not be built. He said they see advantages to a regional bus system and express bus system as well as the use of light rail in some areas of the city.

Mr. Eaton recommended the Board accept the letter presented, indicating approval of the cooperative ADOT/State Transportation Board evaluation.

Board Action: A motion to accept the letter as presented was made by Mr. Jeffers and seconded by Mr. Gant.

Mr. Gant commented that the TPC was charged with pulling together several strong influences and differing ideas. He said an overriding issue is that the half-cent sales tax is now being viewed as a transportation tax. He recommended the Board approve the letter.

Upon a call for the question, the motion passed unanimously.

Financial Report

Mr. McGee reviewed the April 2003 Highway User Revenue Fund report, stating collections for the month totaled \$99,932,000, which was 3.1 percent over last year and 0.2 percent above the forecast. He also reviewed May's results, stating they collected \$92,347,000, which was slightly below forecast. He stated year-to-date collections now total \$1,019,026,000, which is approximately \$7 million over the forecast. He reported Gas and Use Fuel collections through May are on forecast, while Motor Carrier, VLT and Registration continue to exceed forecasts. He said the Other revenue category is the only category that is currently under forecast, explaining driver license fees and investment earnings are lower than originally forecasted.

Mr. McGee discussed the results of the April 2003 Maricopa Transportation Excise Tax, stating RARF continues to show very slow growth. He reported April collections were only up 0.4 percent over last year and 4.1 percent below the forecast. He said May collections were almost 1 percent lower than last year. He stated total collections through May now exceed last year's by only \$430,000 or about 0.2 percent. He noted there has never been a year when collections went down from one year to the next, stating, they hope this will not be the first. He pointed out other areas of the country have seen year-over-year decreases of 15 to 25 percent. He reported Rental of Real Property is the only category that currently exceeds the forecast, while Contracting and Rental of Personal Property are significantly below last year's results.

Mr. McGee reviewed the April 2003 investment report, stating \$1,482,000 was earned on an average invested balance of \$852,854,000 at an average yield of 2.12 percent. He said, year-to-date, the department has earned \$17,558,000, which represents an average yield of 2.67 percent. He noted the May results are not yet available.

Mr. McGee reported the HELP Fund cash balance as of May 31 totaled \$114,315,459.

Financing Program

Mr. McGee stated the \$190 million HURF issue priced in April successfully closed on May 22. He explained the closing provided approximately \$90 million of new money and \$100 million in refund monies. He reported the GAN issue will be priced the week of July 21 and close on or around August 13. He said they currently anticipate a \$117 million issuance, which would reflect \$90 to \$92 million in new money and approximately \$24 million in refund money. He stated the refund would save the state approximately \$250,000 based on today's interest rates. He explained the total amount of new money will be determined by the number of GAN agreements in place at the time of pricing.

* **Approval by the Board of the Initial Arizona Statewide Multimodal Transportation Planning Processes.**

PRIORITY PLANNING ADVISORY COMMITTEE (PPAC)

FY 2003 - 2008 Transportation Facilities Construction Program Requested Modifications

Recommended FY 2004 – 2008 Five Year
Transportation Facilities Construction
Program

Mr. Buskirk presented and recommended approval of the recommended FY 2004-2008 Five Year Transportation Facilities Construction Program. He reviewed the details of the changes made to the tentative program, assuring the Board that all of the changes were reflected in the financial plan presented to the Board at its May 28 meeting.

In response to Mr. Jeffer's question, Mr. Buskirk clarified the SR 89/SR 69 Traffic Interchange project has been deferred from FY 2004 to FY 2005. Mr. Jeffers asked how much the department anticipates saving by repackaging the projects on I-10. Mr. Buskirk was unable to quote an actual figure, however, he assured Mr. Jeffers that the savings will be significant.

Board Action: A motion to approve the above recommendation was made by Mr. Martin, seconded by Mr. Jeffers and passed unanimously.

MAG Life-Cycle / Highway Construction Program

Mr. Kang presented and recommended approval of the MAG Life-Cycle/Highway Construction Program. He stated they still anticipate opening the regional freeway system by the end of 2007,

noting 38 miles are currently under construction, 32 miles are under design and almost 8,000 acres of right-of-way have been purchased. He noted project costs were updated based on the latest design, right-of-way and construction estimates.

Board Action: A motion to approve the above recommendation was made by Mr. Hileman, seconded by Mr. Gant and passed unanimously.

**Statewide Highway Construction Program
(Includes PAG Area Recommendations)**

Mr. Kang presented and recommended approval of the Statewide Highway Construction Program.

Board Action: A motion to approve the above recommendation was made by Mr. Gant, seconded by Mr. Lane and passed unanimously.

Recommended FY 2004 – 2008 Airport Development Program

Mr. Adams presented and recommended approval of the Recommended FY 2004-2008 Airport Development Program. He explained the program was developed assuming a \$3 million sweep of the aviation fund, noting, however, the sweep ultimately totaled \$4.5 million. He said the program also assumed the Flight Property Tax would be postponed an additional year. He stated, consequently, adjustments were made to the current Five Year Program as well as the Tentative Five Year Program. He explained they are now recommending 820 projects, as opposed to the 824 projects originally presented in the Tentative Program.

Board Action: A motion to approve the above recommendation was made by Mr. Gant and seconded by Mr. Hileman.

Mr. Jeffers asked about potential effects the loss of the projects being proposed for elimination will have on the cities of Sedona and Flagstaff. Mr. Adams explained the projects are state/local projects and the lowest priorities selected for that year. He noted they have recommended to Gateway and Sedona that they try to secure federal funds to replace the state funds.

Upon a call for the question, the motion passed unanimously.

The meeting recessed for a short break.

Board Action: A motion to approve the Transportation Facilities Construction Program, the MAG Life-Cycle/Highway Construction Program, the Statewide Highway Construction Program and the Airport Development Program,

including all modifications, was made by Mr. Martin, seconded by Mr. Hileman and passed unanimously.

FY 2003 - 2007 Transportation Facilities Construction Program

*ITEM 11: ROUTE NO: SR 77 @ MP 77.00
 COUNTY: Pima
 SCHEDULE: FY 2003
 SECTION: Calle Concordia - Tangerine Road
 TYPE OF WORK: Design roadway reconstruction
 PROGRAM AMOUNT: \$600,000 Funding Source: State
 PROJECT MANAGER: Bruce Purrier
 PROJECT: H545901D Item Number; 17003
 REQUESTED ACTION: Increase program amount by \$300,000 to \$900,000
 and defer project from FY 2003 to FY 2004. **Funds
 available from FY 2003 ITD Engineering
 Development Fund #70703.**

 PROGRAM AMOUNT: \$600,000
 INCREASE AMOUNT: \$300,000
 NEW PROGRAM AMOUNT: \$900,000

Board Action: A motion to approve the above recommendation was made by Mr. Jeffers,
 seconded by Mr. Martin and passed unanimously.

ROUTE NO: SR 80 @ MP 364.00
COUNTY: Cochise
SCHEDULE: FY 2003

SECTION: Douglas Strategic Weigh and Inspection Station
(NE Corner, SR 80 & US 191)

TYPE OF WORK: Design and construct weigh/inspection station
facilities

PROGRAM AMOUNT: \$1,055,000 Funding Source: CBI

PROJECT MANAGER: Bruce Purrier

PROJECT: H624301C Item Number; 28303

REQUESTED ACTION: Increase program amount by \$1,000,000 to
\$2,055,000. Defer project from FY 2003 to FY
2005 to allow for completion of scoping document,
and identify additional funding sources. **Funds
available from the FY 2003 Statewide Port of
Entry Fund #74703.**

PROGRAM AMOUNT: \$1,055,000

INCREASE AMOUNT: \$1,000,000

NEW PROGRAM AMOUNT: \$2,055,000

Board Action: A motion to approve the above recommendation was made by Mr. Martin,
seconded by Mr. Lane and passed unanimously.

ROUTE NO: US 191 @ MP 24.00

COUNTY: Cochise

SCHEDULE: FY 2003

SECTION: Elfrida

TYPE OF WORK: Construct pathway and landscaping

PROGRAM AMOUNT: \$625,000 Funding Source: STP

PROJECT MANAGER: Cheryl Banta

PROJECT: H494201C Item Number; 50499

REQUESTED ACTION: Defer project from the FY 2003 Highway
Construction Program. Unable to reach agreement
with Cochise County on JPA. **Funds return to
Statewide Enhancement Fund #75603.**

Board Action: A motion to defer the project to FY 2005 was made by Mr. Jeffers and
seconded by Mr. Martin.

Mr. Buskirk stated the item was improperly agenda'd and suggested it be tabled until the Board's
next meeting.

Chairperson Radicke pointed out the money goes back into the same fund.

Mr. Buskirk suggested the Board make a motion to revise the recommendation.

Mr. Jeffers expressed his opinion the mistake represents nothing more than a misprint, pointing out the item accompanying the agenda indicated the project will be deferred to 2005.

In response to a member's question, Mr. Buskirk clarified the county only wanted the pathways and was unwilling to participate in maintaining the landscaping. He noted they now have a signed IGA with the County.

Upon a call for the question, the motion passed unanimously.

\$ OVER:	\$	4,507.00
% OVER:		2.6%
NO. BIDDERS:		5
RECOMMENDATION:		

COMMENTS: At the bid opening on May 16, 2003, Truesdell Corporation was read as the apparent low bidder with a bid of \$168,261.85. The second low bidder, Bison Contracting Co., Inc., bid \$175,000.00.

Subsequent to the bid opening, an irregularity in the bidding documents submitted by Truesdell was identified. Truesdell failed to sign the bid bond.

Truesdell submitted a protest of potential award to the second low bidder and requested the Department excuse Truesdell's failure to sign the bid bond as a minor irregularity.

Subsection 102.10(B) of the Standard Specifications specifically states that proposals will be considered irregular and will be rejected if the bidder fails to sign the bid bond. This specification is unambiguous.

Truesdell cites A.R.S. §7-103(A), which makes a bond sufficient, even without the signature of the principal, if the surety is a corporation and "if the bond or undertaking is approved by the court, body or person required to approve or accept it." This statute gives the Department the discretion to allow the use of a corporate surety without the signature of the principal. However, the statute does not require the Department to approve the bond.

Section 102.10(B)(2) of the Standard Specifications controls and requires rejection of the bid. In the absence of the approval of the bond by the "court, body or person required to approve or accept it," the bond is invalid.

Staff recommends rejecting Truesdell's bid and awarding the contract to Bison Contracting.

Board Action: A motion to approve the above recommendation was made by Mr. Jeffers, seconded by Mr. Lane and passed unanimously.
